

新高中課程家長晚會
及
中三學生選科意向調查

敬啟者：

教育局新高中學制自二零零九年正式實施，為配合新高中學制，本校將維持一個連貫及多元化的高中課程；除中文、英文、數學、通識教育四個核心科目外，本校會因應課程設計及學生升學需要，編配學生修讀兩科或三科選修科。為了瞭解中三學生升讀中四的選科意向，請家長與貴子弟商議，在調查表上填寫擬於2017-2018年度升讀新高中選修科目的意向。家長及學生填表前請瀏覽教育局網頁 <http://www.edb.gov.hk/334>，以了解新高中學制及各大學公布的最新入學要求。

為增加學生及家長對新高中課程及學科的認識，本校已分別於7/12/16、24/3/17、3/4/17舉辦三次新高中課程講座，及於三月五日(星期日)舉辦中三級家長日，介紹新高中最新資訊，解答家長及同學查詢，效果理想。

請將填妥的意向調查表，於五月八日(星期一)交回班主任。如有垂詢，請聯絡班主任。

此致

**Parents' Night on New Senior Secondary Curriculum &
Survey on Subject Selection for S3 Students**

In line with the Education Bureau's new senior secondary academic structure effective since 2009, the school will continue to implement a coherent and diversified senior secondary curriculum. In addition to the 4 core subjects of Chinese Language, English Language, Mathematics and Liberal Studies, each student will choose either 2 or 3 elective subjects based on the curriculum design and their own academic requirements for further education. To help us understand S3 students' preferences for S4 subjects, parents are kindly requested to discuss this matter with your child and indicate their preferences in the survey form below. Please browse the Education Bureau's website (<http://www.edb.gov.hk/334>) beforehand to learn about the New Senior Secondary Academic Structure and the latest enrollment requirements of local universities.

To help students and parents understand the new senior secondary curriculum and the subjects on offer, the school has organized three New Senior Secondary curriculum talks on 7 Dec, 2016, 24 March, 2017 and 3 April, 2017 respectively, and a S3 parents' Day was held on 5 March (Sunday) to provide the latest information about the New Senior Secondary curriculum.

Please submit a completed survey form to the form teacher on 8 May (Monday). For enquiries, please contact the Form teacher

* S4 students choosing 2 or 3 elective subjects were grouped in different classes in 2016-17. A similar arrangement will be in place in the 2017-18 school year. The final combination of subjects in 2017-18 will be based on factors such as the school's resources, students' overall preferences, and the sustainability of subject combinations.

- Students can choose 2 (2X) or 3 (3X) elective subjects based on their competences, preferences or interests. Students with better performance in mathematics can also take Mathematics Module 1 or Module 2. Example 2 (2X): Chinese History + Information and Communication Technology

Example 3 (2X): Chemistry + Geography

Example 4 (3X): Business, Accounting and Financial Studies + Physics + Chinese Literature

- Students who prefer pure science / Engineering combinations may consider:

Example 5 (3X): Chemistry + Biology + Physics + M2

- Students who prefer pure art combinations may consider:

Example 6 (3X): Chinese History + Chinese Literature + History

- Students who prefer business combinations may consider:

Example 7 (2X): Business, Accounting and Financial Studies + Economics + Mathematics M1
