22 July 2022

### Subject Selection Form for S3 Students (2022 – 2025)

A parents' day was held on 15 May to provide parents of S3 students with detailed information on the senior secondary curriculum structure in the 2022 – 2025 school years, the principles of offering various elective subjects, and points to note on subject selection as well as relevant administrative arrangements. In addition to the 4 core subjects including Chinese Language, English Language, Mathematics and Citizenship and Social Development, each student will have to take 3 elective subjects. Students with higher academic attainment are recommended to take Mathematics Extended Part Module 2 (M2) as an extra subject (i.e. 4 core subjects + 3 other elective subjects + M2).

The school will undertake computer programme-assisted allocation of senior secondary elective subjects for the next 3 years based on factors such as school resources, university admission requirements, overall preferences of students and coherence of subject combinations.

Parents and students are advised to visit the following websites before completing the subject selection form to understand the senior secondary curriculum and the latest university admission requirements.

<http://www.edb.gov.hk/334>

<http://www.jupas.edu.hk/en>

Students should be faithful to their personal aspirations, interests and abilities and adopt an objective, unbiased and rational approach in selecting senior secondary subjects.

The elective subject selection form should be submitted to the form teacher on 28 July (Thursday). Parents will be informed of the results of subject selection individually in early August. For enquiries, please contact the Form teacher.

Ng Kit Yung  
Principal

Reply Slip and Subject Selection Form (To be submitted to form teacher on 28 July)
